

The progress of Forest Protection and Restoration Commitment July 2016 - June 2017

KEY MILESTONES MULTI STAKEHOLDER LANDSCAPE CONSERVATION

SUSTAINABLE LANDSCAPE APPROACH : Connecting the pieces

Businesses, cities, farmland and protected areas depend on healthy landscapes - shared spaces where they need to co-exist in harmony.

Because all these actors are interconnected and are an integral part of the area, they must be involved in the solution to sustainably manage the landscape they rely on.
